HOW TO PHOTOGRAPH INSECTS

Insect photography can be a somewhat divisive topic People tend to have clear cut feelings about bugs: some love them, others hate them There's usually no ambivalence about it Naturally, these feelings extend to photography; if you enjoy insects, you'll probably get a thrill out of pursuing them, all in the name of a brilliant image

Wildlife Express Newsletter - May 2014 - Aquatic Insects

If you were an insect living underwater, how would you breathe? Insects are animals, so they need oxygen to survive Many aquatic insects have gills, just like fish The gills may be attached to the outside of the insect's body or found inside the body Some insects have tubes sticking out of their abdomens They stick the tube above the
